WELCOME ABOARD!

FRAN VISELLI JOINS SHELTON STATE COMMUNITY COLLEGE STAFF

Local businessman Fran Viselli has been named tech prep specialist for Shelton State Community College, according to Tom Umphrey, Shelton president.

Viselli, who is the owner and founder of Bama-Bino Pizza of Tuscaloosa, has been active in many local organizations over the past few years. A native of Corning, New York, Viselli and his family moved to Tuscaloosa in 1975. Long known for his commitment to the community in general and children in particular, Viselli is currently involved with planning the Education Summitt scheduled to be held in November.

He has also been actively involved with the March of Dimes. He is a graduate of Leadership Tuscaloosa and has been recognized as Northport's Citizen of the Year. Viselli received the Good Samaritan Award from the Tuscaloosa Fire Department and sponsored the Up With People organization when they came to Tuscaloosa several years ago to perform. He helped develop the University of Alabama's Seat Belt Safety Program which was recognized nationally by the President of the United States. Viselli and his family are active members of St. Francis Catholic Church in Tuscaloosa.

As the tech prep specialist for the college, he will be working with secondary school systems in West Alabama, including the Tuscaloosa City School System, Tuscaloosa County School System, and those in Hale, Greene, Bibb, and Pickens, and Sumter counties.

The concept for tech prep has been in existence for a number of years. However, it was only in 1990 that funding for the program actually became available under the Carl Perkins Vocational Act that was passed by Congress.

The purpose of a tech prep program is to guide students into courses which will form a firm academic and technological foundation on which to build their future. Designed to give high school graduates a more technically-oriented educational background, tech prep is characterized by a blending of academic and vocational/technical competencies. Another program objective is to raise the levl of expectations for students who have traditionally been a part of the neglected majority.

"Education is now in the public domain," Viselli said. "As part of this consortium of educational institutions, Shelton's role will be to work with the other schools to develop strong curriculum changes in order to provide students with equal access to a number of opportunities and careers."

FRAN VISELLI

SHELTON STATE

and

The University of Alabama's Core Curriculum

All students who began college after April 30, 1983, and who plan to earn a degree from the University of Alabama must meet the requirements of the UA Core Curriculum.

Most of the courses in the UA Core Curriculum can be taken in the freshman and sophomore years, the first two years of college. It is important to note that A SHELTON STATE STUDENT CAN TAKE MOST, IF NOT ALL, OF THE CORE CURRICULUM COURSES THAT HE OR SHE NEEDS FOR THOSE FRESHMAN AND SOPHOMORE YEARS.

The requirements of the Core Curriculum are as follows:

- 1. 10 quarter hours in courses that require application of a computer language (except for students who satisfy the foreign language requirements) (C);
- 2. 10 quarter hours in freshman composition (FC);
- 3. 15 quarter hours of a foreign language (except for students who satisfy the computer science requirement)(FL);

4. 18 quarter hours in humanities courses (H);

- 5. 10 quarter hours in mathematics courses beyond college algebra or in other courses that require the application of mathematic skills at or above the level of college algebra (M);
- 6. 15 quarter hours of science, including a lab (NS);
 7. 10 quarter hours in social science courses (SS);
- 8. Six semester hours in advanced courses (preferably in the student's major) in which good writing is required in addition to mastery of the subject matter (W). These courses must be taken at the University of Alabama.

The manner in which a course is counted toward the general education requirements for the Associate in Arts and the Associate in Science degrees at Shelton State Community College will in some cases differ from the way that course is treated in the UA Core Curriculum. For example, History of Western Civilization (HIS 101-102) will satisfy the social science requirements of the associate degrees. However, HIS 101-102 are regarded as humanities in the UA Core Curriculum.

It's easy to get involved in student activities at Shelton State. Currently. organizations open to students. If you are interested in joining any of these organizations, call 391-2252. 2. Afro-American Cultural Association

- 4. Corsair Fencing Club 3. Ambassadors

 - 5. Ecology Club
 - 6. Explorer Post 60 7. Health Related Careers
 - 8. Phi Theta Kappa 9. Shelton Newsmagazine
 - 10. Shelton State Association of 11. Sigma Delta Mu Alpha chapter
 - 13. Student Government Association

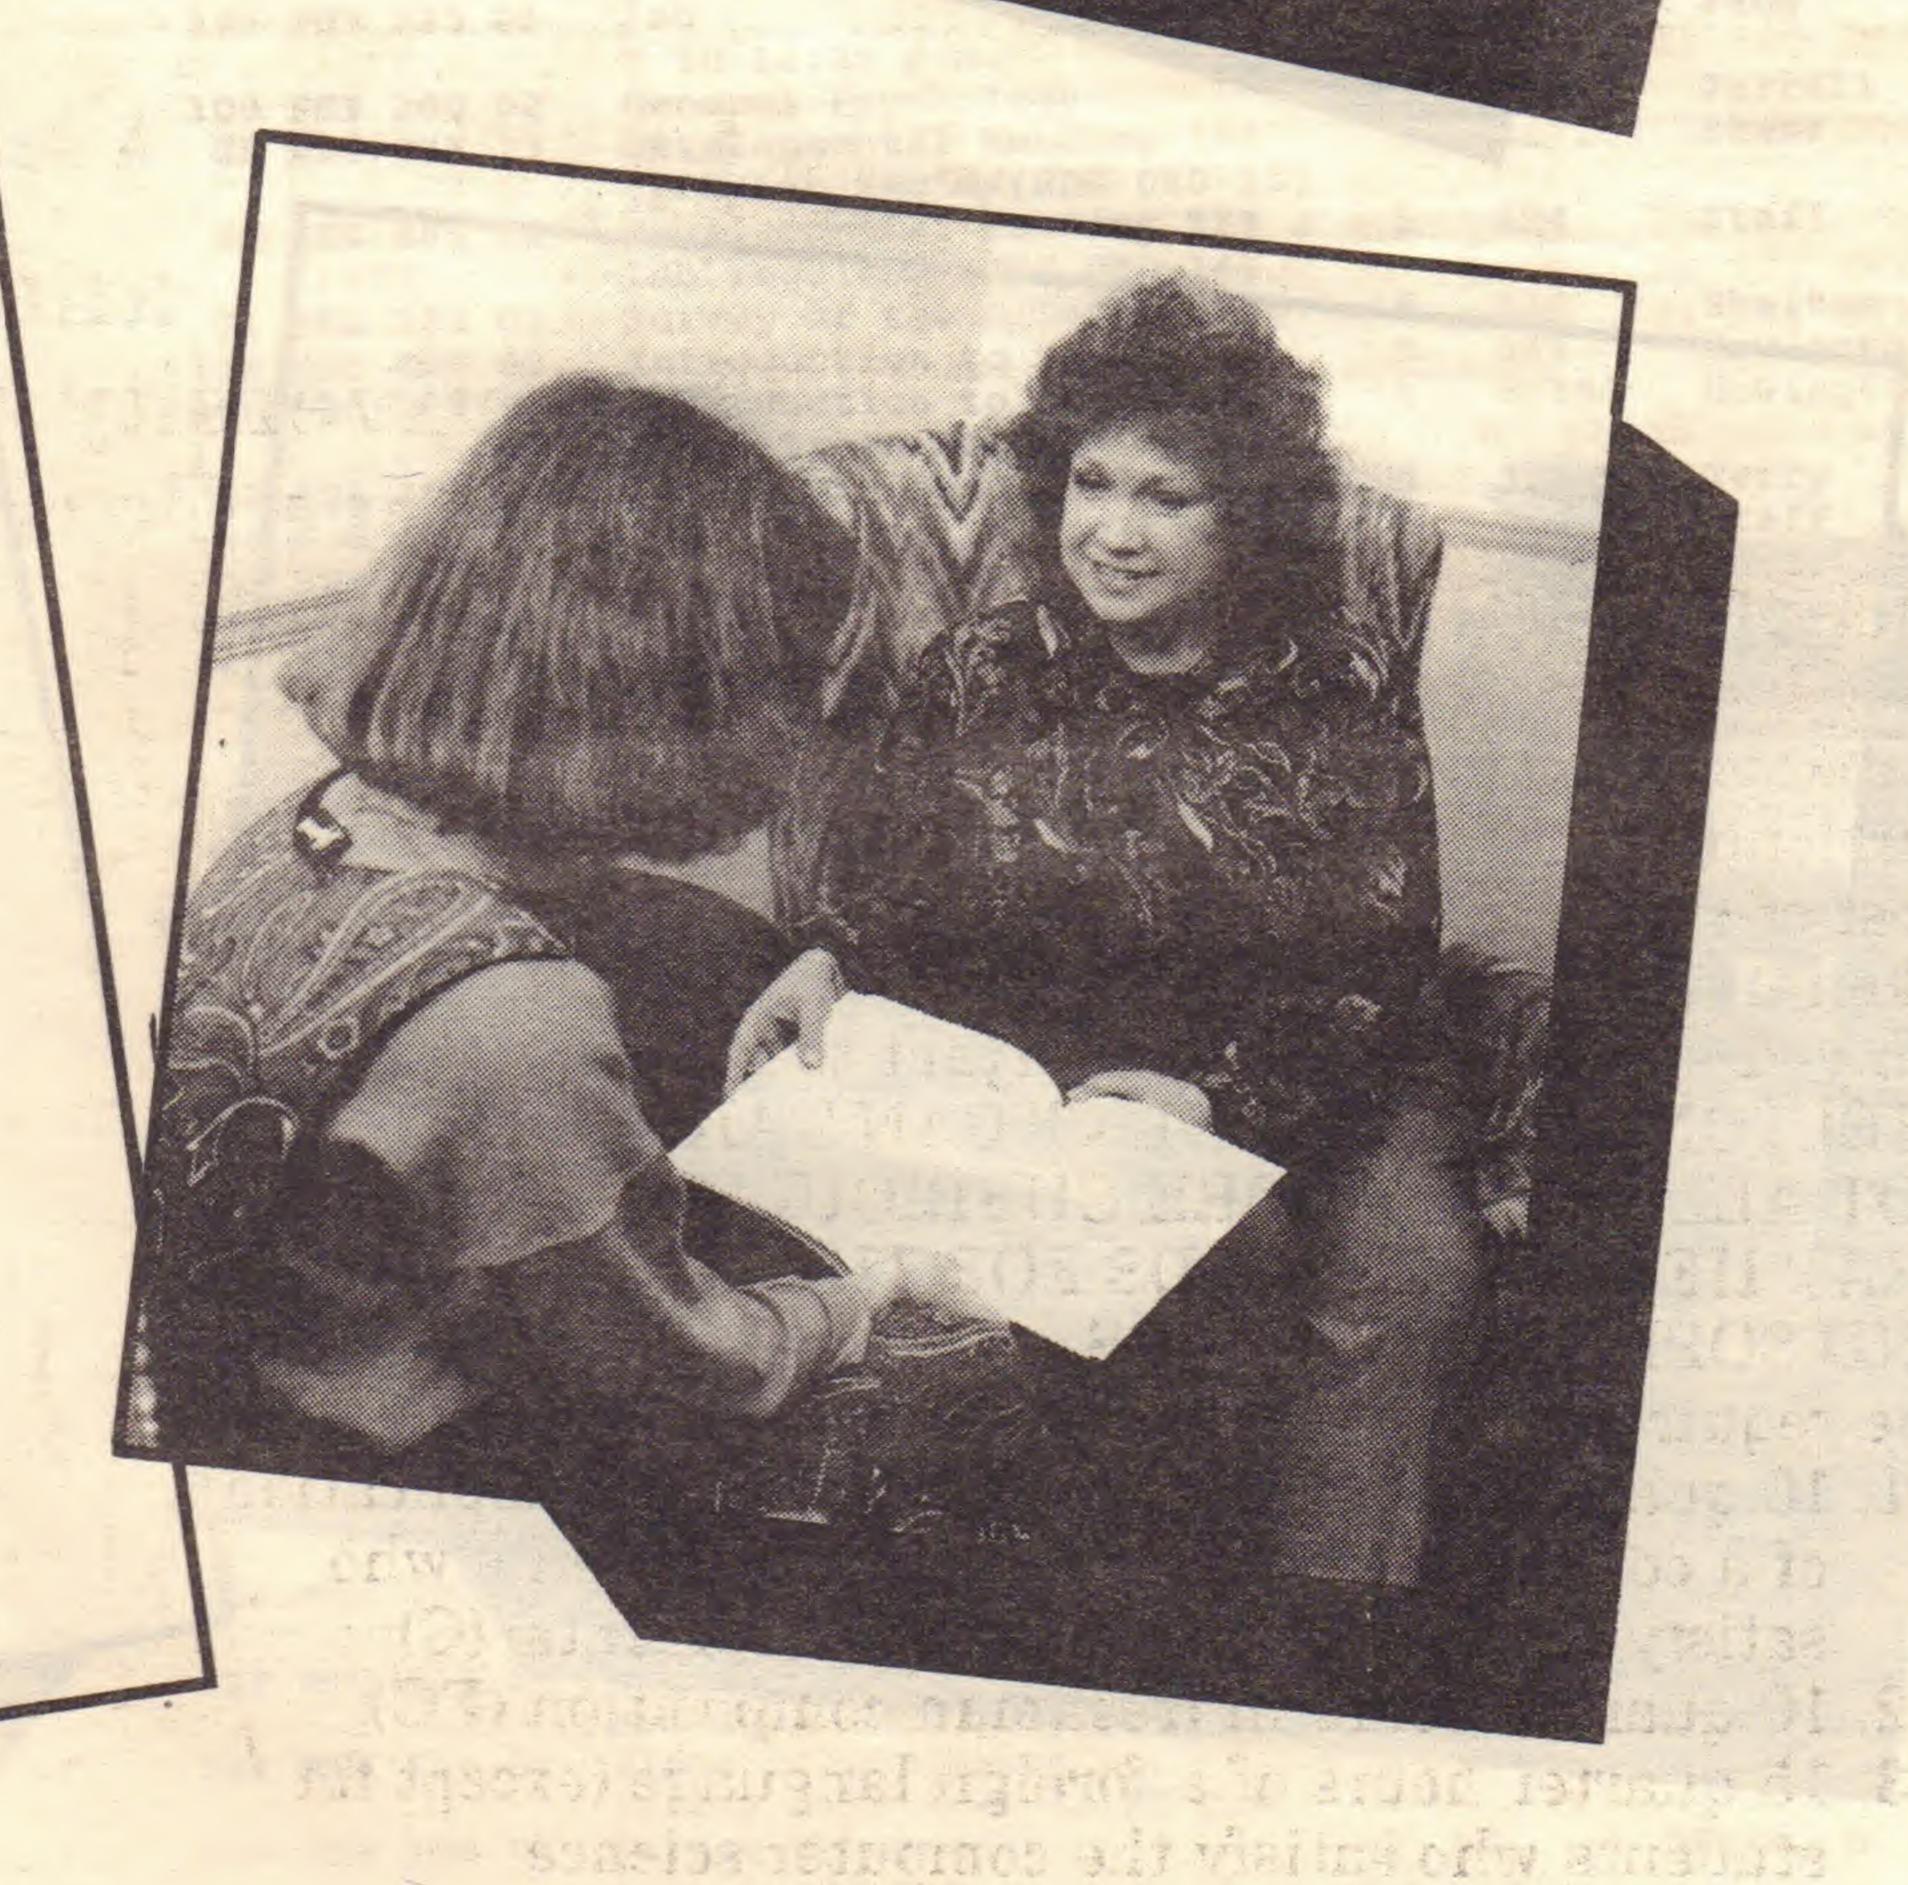

NEW OPTIONS

New Options, a program designed specifically for adult women, offers vocational guidance, educational placement, and personal counseling. Beginning its seventh year, the program continues to serve women who wish to improve their lives. Program director Dr. Paula Sue Hayes and counselor Dr. Betty Gibbons are advisors and instructors to participants, connecting them with the educational and support services of the college as well as referring them to appropriate community agencies.

Two classes, New Options Seminar and Personal Development, are offered Fall, Winter and Spring quarters. Tuition help is available for these and other appropriate classes at Shelton. Fall quarter program begins September 6th.

Call New Options, 391-2383, for further information.

SPECIAL PROGRAMS & COURSES ! JULT STUDIES! Any person 60 years of age and older may register tuition free for any course offered by Shelton State Community College. For more information on the program, Contact the ADULT STUDIES office,

A. MAJERINALINES

4. 13 quarter hours in humarilies courses in:

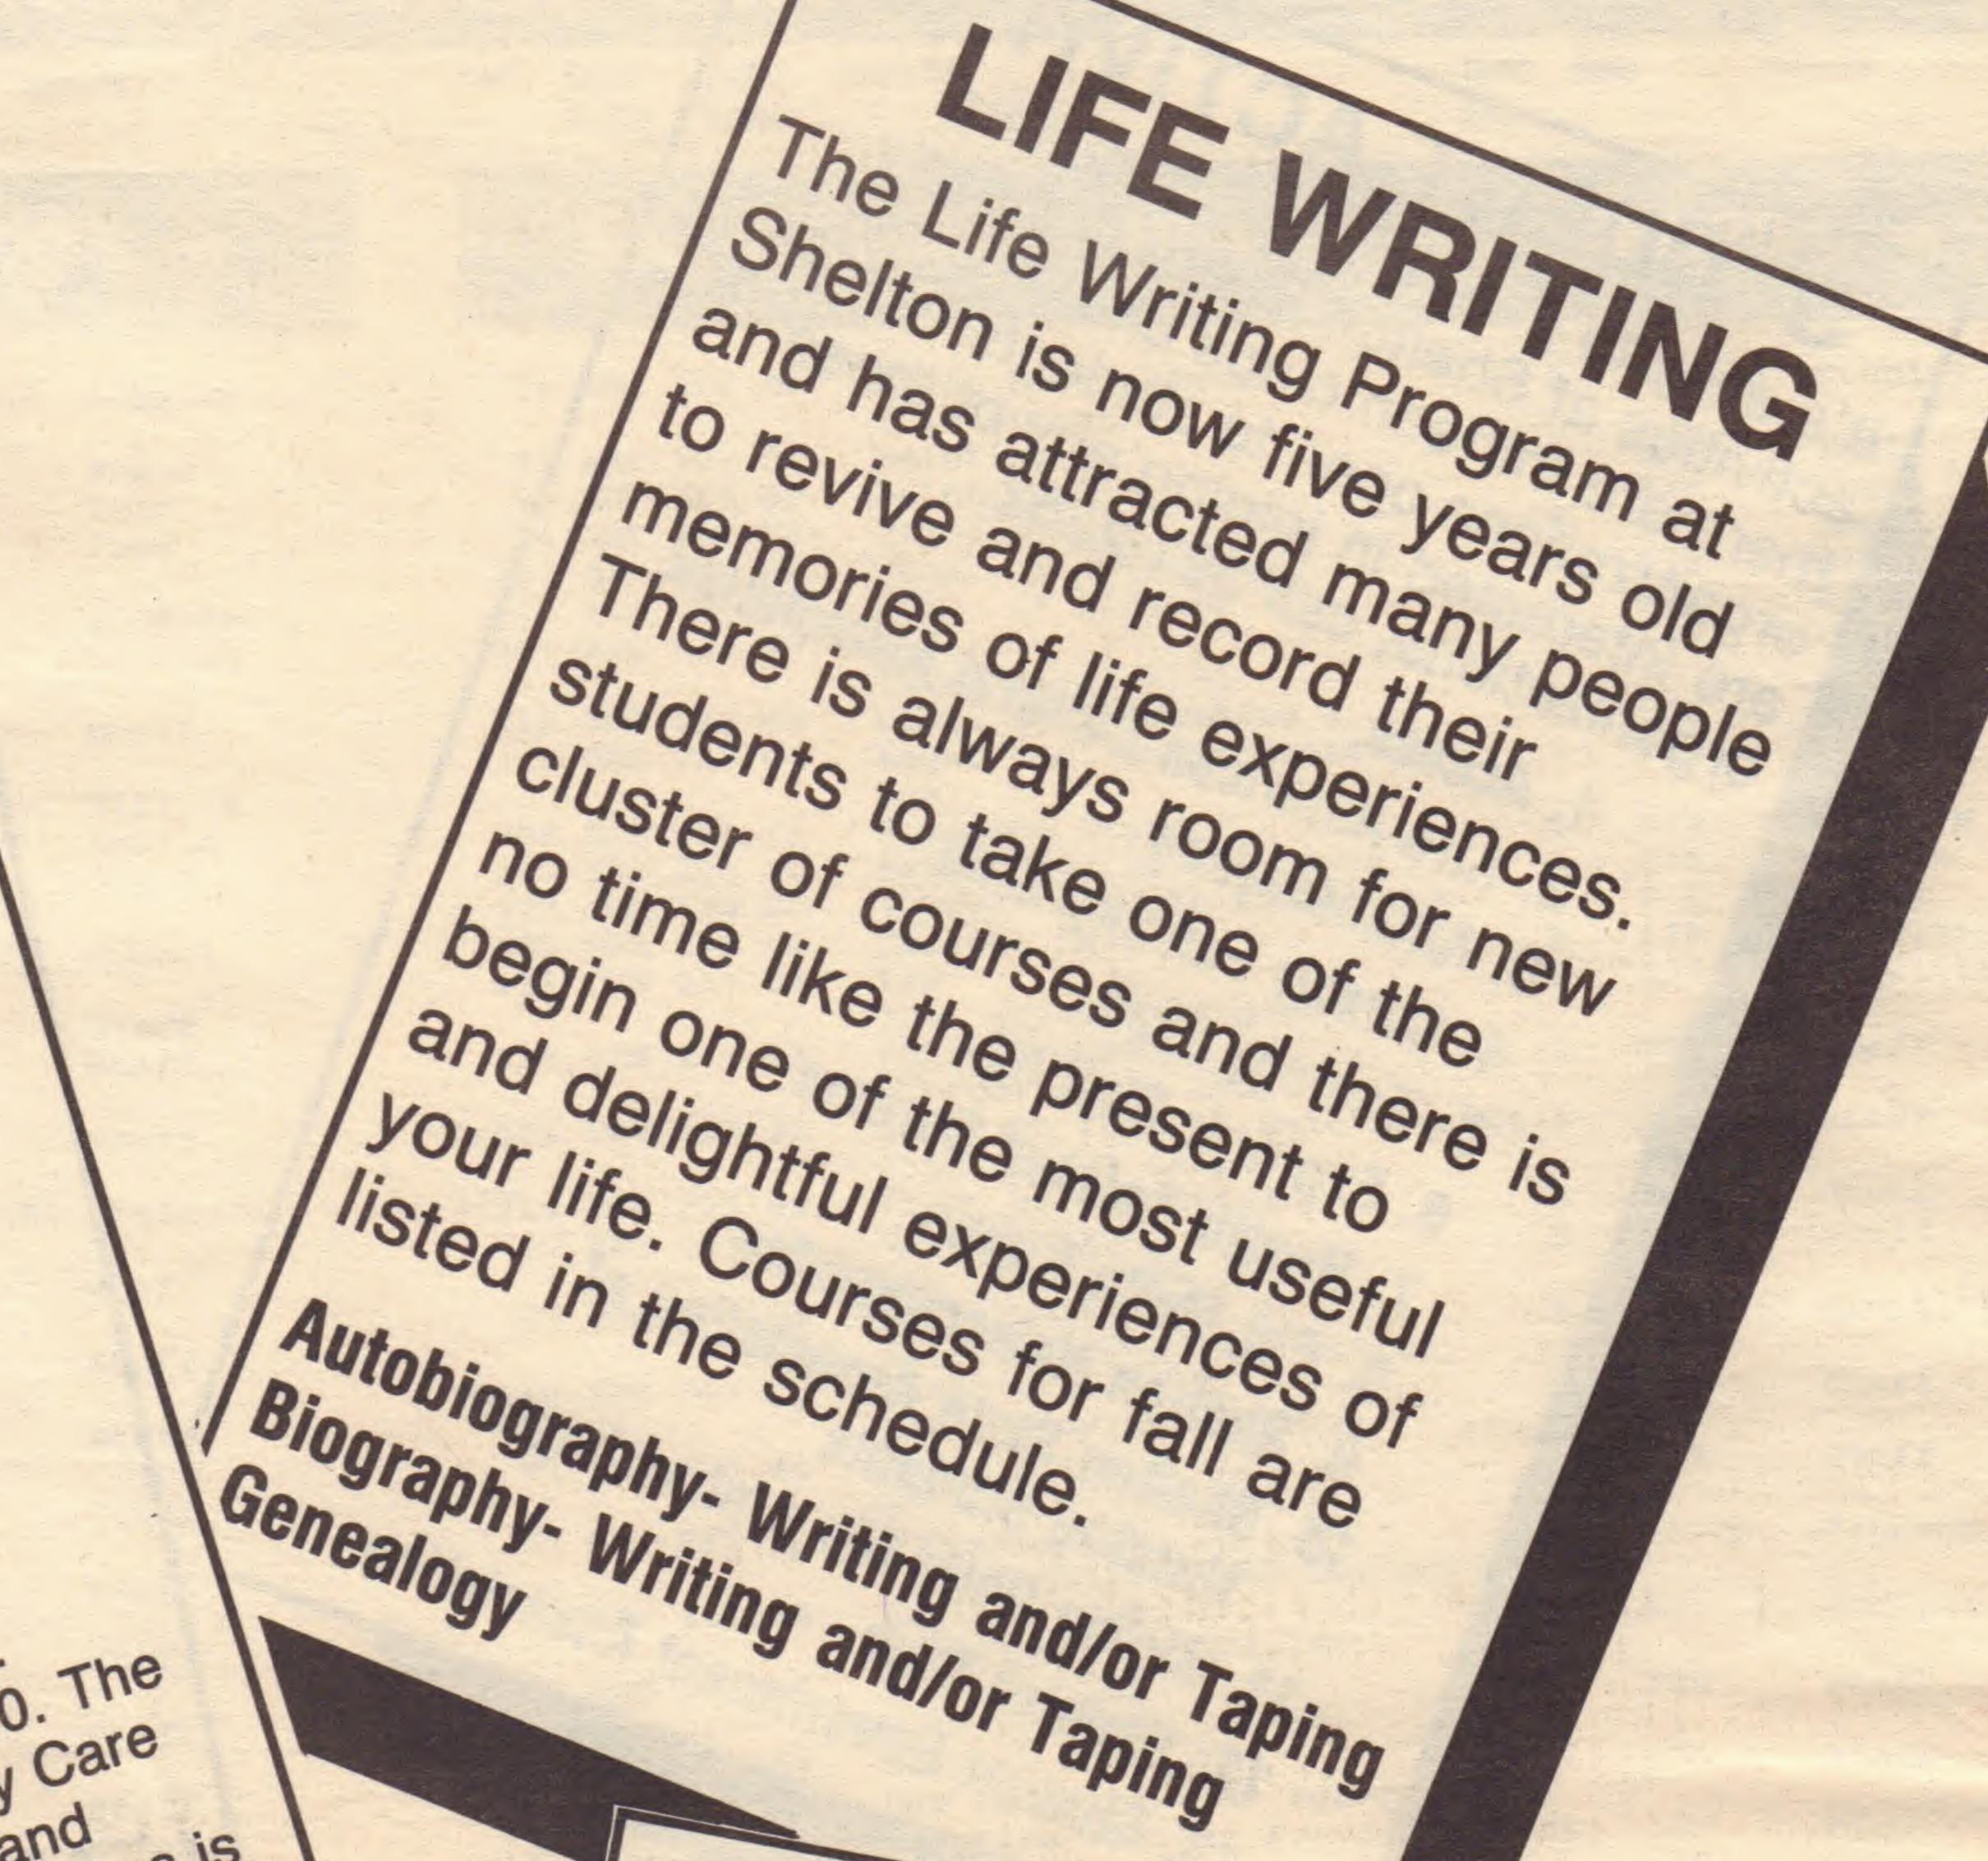

391-2388.

I EMERGENCY MEDICAL TECHNICIAN BASIC LEVEL

The Alabama State Fire College, a division of Shelton State Community College, is offering the Emergency Medical Technician-Basic course. September 4 through November 25. 1991. Classes will be held on Monday and Wednesday at the Alabama Fire College, 2015 McFarland Blvd. E.

759-1508.

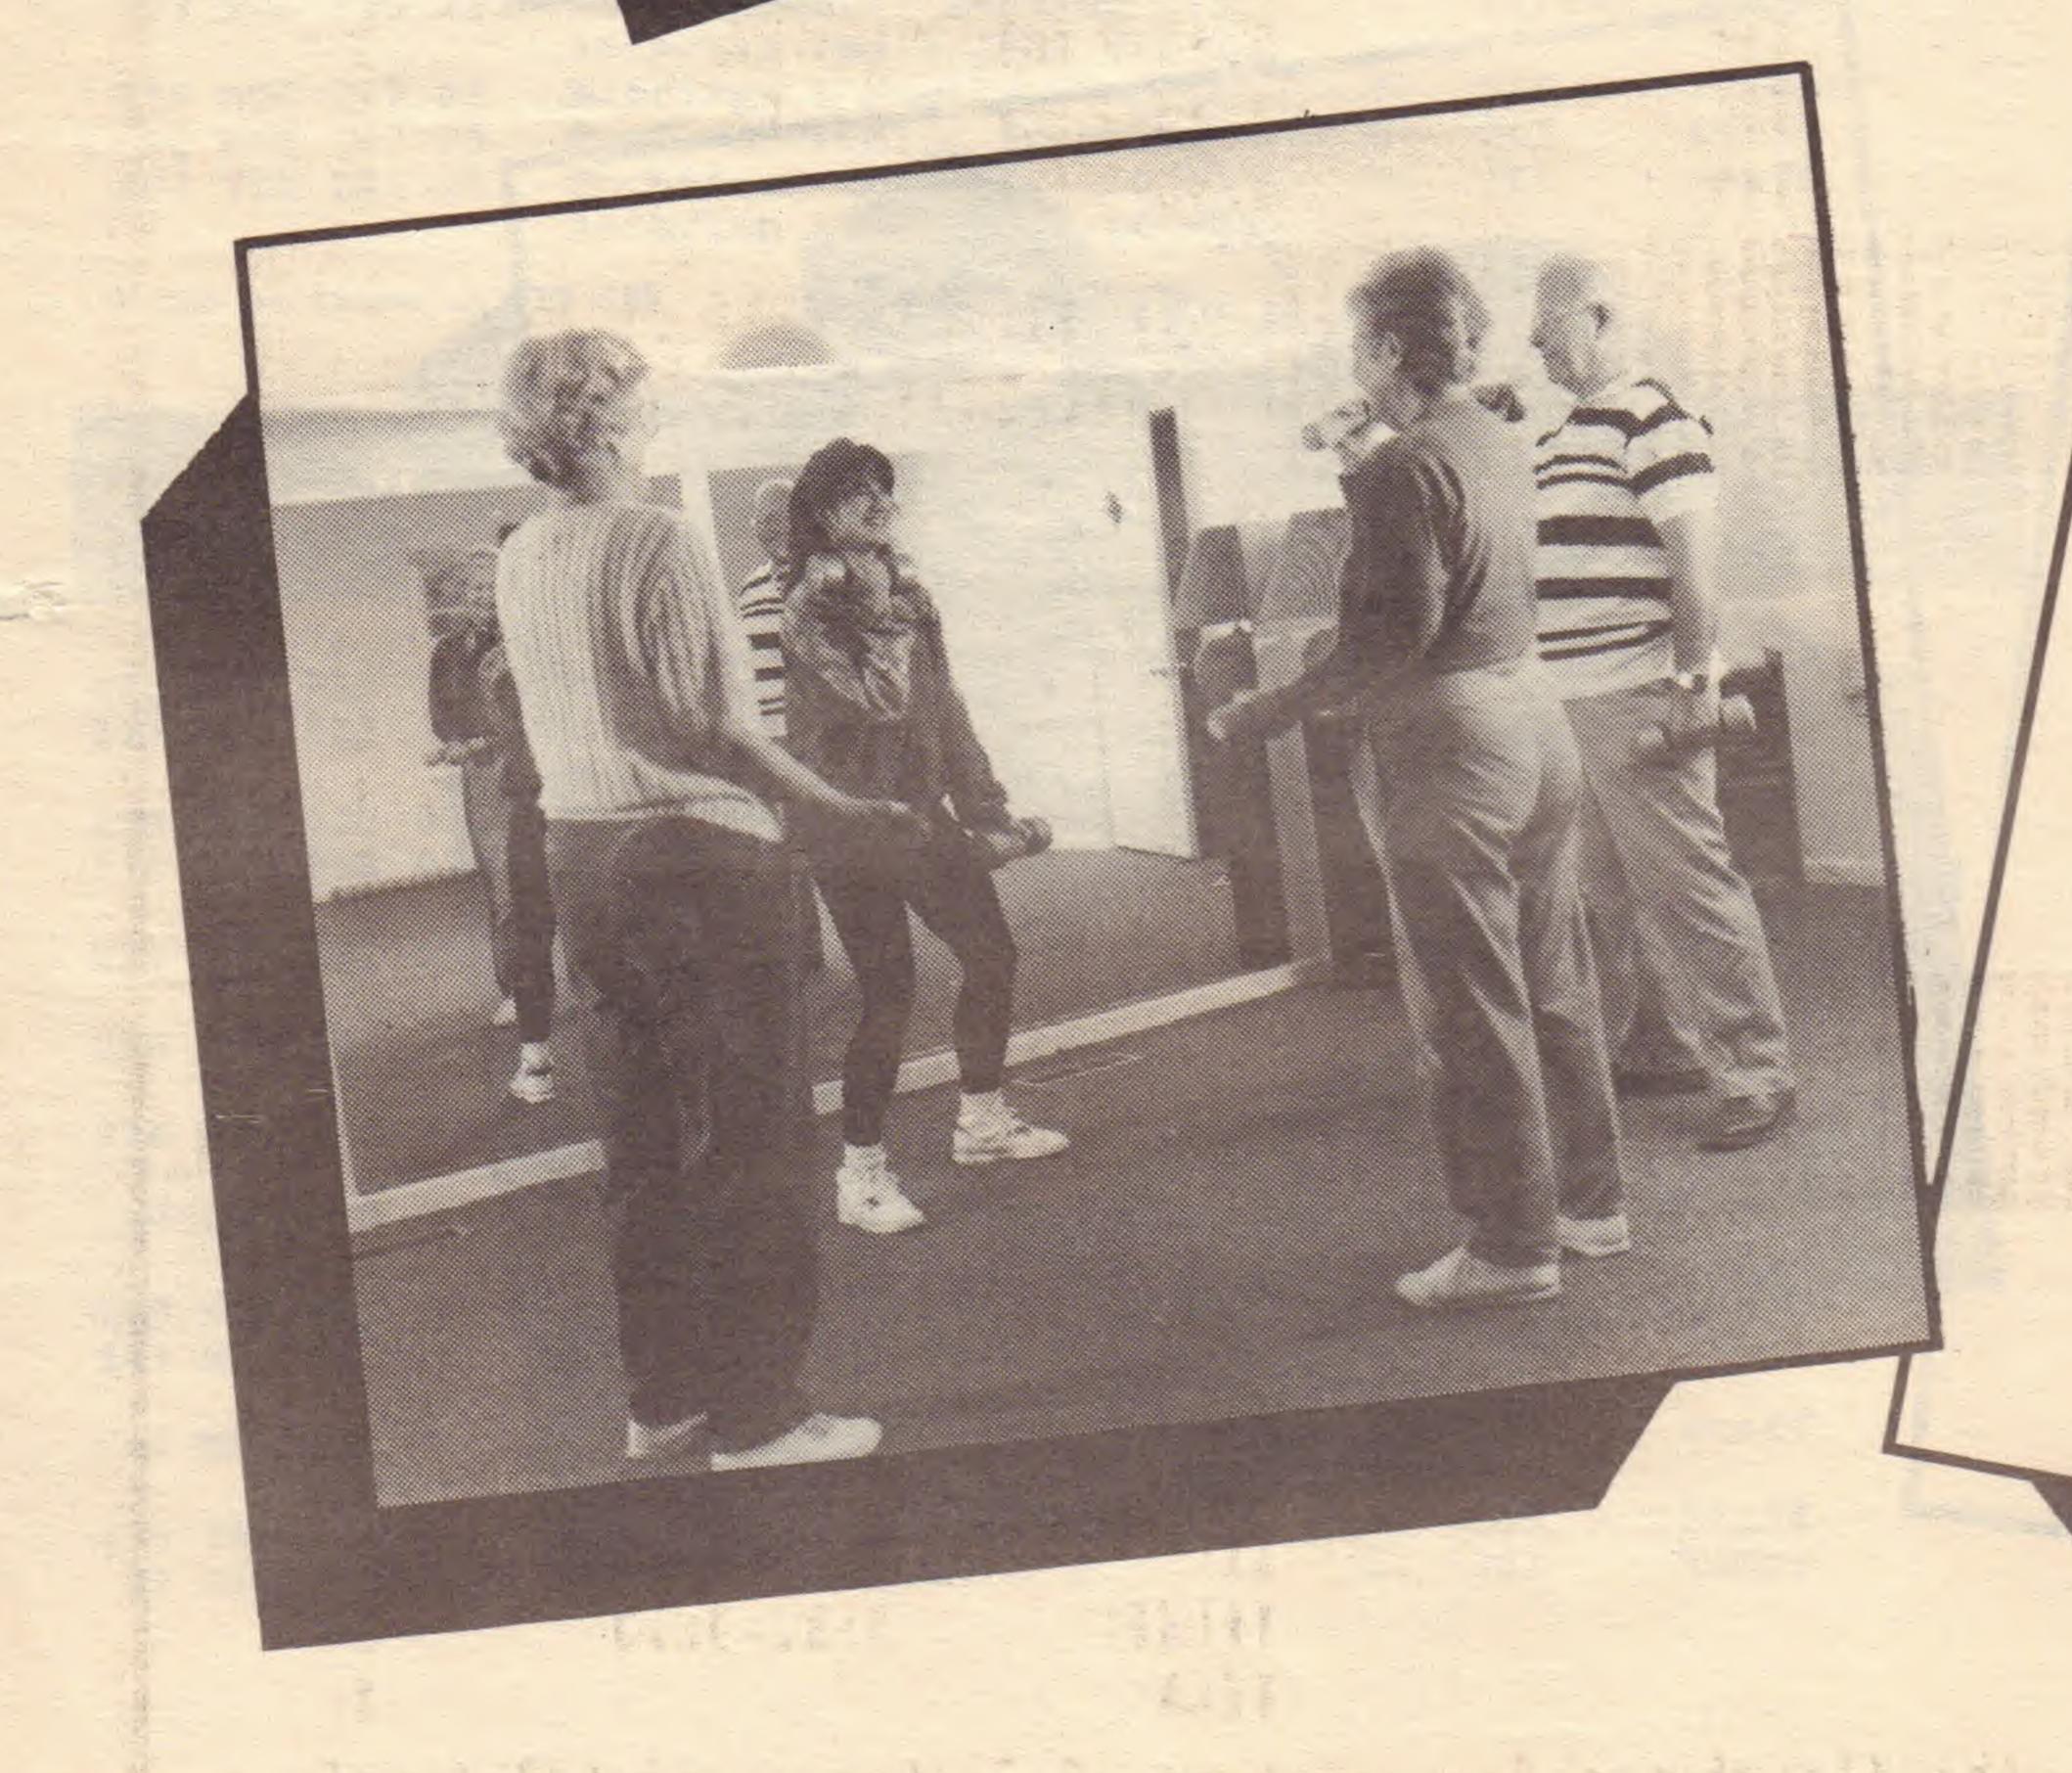

Early registration will be held August 28, 1991 from 3-7 p.m. Final registration will be held September 4, 1991 from 4-6 p.m. held at the Alabama Fire College. Course registration fee is \$125.00.
